## Important information for the prospective resident

- The Village Comparison Document gives general information about the retirement village accommodation, facilities and services, including the general costs of moving into, living in and leaving the retirement village. This makes it easier for you to compare retirement villages.
- The *Retirement Villages Act 1999* requires a retirement village scheme operator to:
- provide a copy of the Village Comparison Document to a prospective resident of the retirement village within seven days of receiving a request
- include a copy of the Village Comparison Document with any promotional material given to a person, other than through a general distribution (e.g. mail-out)
- publish the Village Comparison Document on the village's website so that the document, or a link to it appears prominently on each page of the website that contains, or has a link to, marketing material for the village
- You can access a copy of this Village Comparison Document on the village website at <a href="https://cofc.com.au/regency-park">https://cofc.com.au/regency-park</a>
- All amounts in this document are GST-inclusive, unless stated otherwise where that is permitted by law.

### Notice for prospective residents

Before you decide whether to live in a retirement village, you should:

- Seek independent legal advice about the retirement village contract there are different types of contracts and they can be complex
- Find out the financial commitments involved in particular, you should understand and consider ingoing costs, ongoing fees and charges (which can increase) and how much it will cost you when you leave the village permanently
- Consider any impacts to any pensions, rate subsidies and rebates you currently receive
- Consider what questions to ask the village manager before signing a contract
- Consider whether retirement village living provides the lifestyle that is right for you. Moving into a retirement village is very different to moving into a new house. It involves buying into a village with communal facilities where usually some of the costs of this lifestyle are deferred until you leave the village. These deferred costs when you leave your unit may be significant.
- Seek further information and advice to help with making a decision that is right for you. Some useful contacts are listed at the end of this document, including:

	For simplicity, the Exit Fee information below and any Prospective Costs Document given to you assume that the date of occupation of your unit and the commencement date of your residence contract are the same date, and that you cease to reside in the unit on the Exit Date. However, this is subject to the terms of your residence contract and the Retirement Villages Act 1999 (Qld).

11.2 What other exit costs do residents need to pay or contribute to?	If the former resident and scheme operator cannot agree on the resale value within 30 days, the scheme operator must obtain a valuation from a registered valuer within a further 14 days. The valuation is taken to be the agreed resale value of the right to reside for the accommodation unit. You and the scheme operator must share the cost of the valuer in the same proportion as the gross ingoing contribution on the sale of the right to reside, is shared under your residence contract. After the valuation is provided the scheme operator will give you an exit statement showing the estimated final amount of money you will receive when the right to reside is resold and all the costs you will have to pay. The resident's portion of any sale costs and/or valuation costs is calculated as follows:         (A − B − C)       D         Where:       A = the resident's ingoing contribution         B = the exit fee       C = the termination fee         D = the ingoing contribution payable by the next resident of the unit
